Analytics & Reporting: Data Cleaning & Transformation • Exploratory Data Analysis • KPI Dashboards & Reporting • Business Intelligence
Automation & Workflow: Workflow Automation • Reporting Automation • Process Improvement • Google Apps Script • VBA
Programming: Python (Pandas, NumPy, Jupyter) • SQL (MySQL)
Collaboration & Tools: GitHub (Version Control) Jupyter Notebooks • Strategic Thinking • Attention to Detail
Finance & Accounting: Financial Reporting • Budgeting & Variance Analysis • Payroll Operations

WORK EXPERIENCE

Accounts Officer – Financial Reporting & Analysis | West African College of Physicians (WACP) – Lagos, Nigeria
| Nov 2025 – Present

- Designed and built data collection, reporting, and analytics systems used across the organization to track performance.
- Automated recurring reporting and approval workflows, improving operational efficiency by 30%.
- Built an automated invoice and payment workflow, accelerating approvals and improving data transparency.
- Developed an automated payroll processing system, improving accuracy and cutting turnaround time.
- Built an automated inventory management system for real-time stock tracking, eliminating manual tracking errors.
- Develop and deliver interactive dashboards and data-driven insights that support day-to-day operational decision-making.

Business Intelligence & Data Analytics Consultant (Part-Time, Remote) | Frankward Global Services Ltd | Aug 2025 – Present

- Designed data and reporting systems to support data-driven decision-making across business functions.
- Built interactive Excel and Power BI dashboards for KPI tracking and performance monitoring.
- Automated reporting workflows, cutting manual effort by 40% and speeding up data delivery.
- Delivered analytical insights from operational and financial data to support planning and performance improvement.

Finance Officer | Croix International Management Company Ltd – Lagos, Nigeria | Jan 2021 – Jul 2025

- Built automated Excel models and dashboards, cutting manual reporting time by 30%.
- Developed KPI tracking systems for expense control, revenue monitoring, and operational efficiency.
- Built financial models and analysis that improved budget forecasting accuracy by 20%.
- Led monthly reporting and reconciliation for transactions exceeding 50 million Naira, identifying and resolving discrepancies worth 5 million Naira.
- Oversaw payroll operations in compliance with Nigerian tax regulations and statutory deduction requirements.

PROJECT EXPERIENCE

Profitability & Departmental Cost Analysis *(Python, Power BI)* [GitHub](#)

- Performed exploratory data analysis in Python and built Power BI dashboards to analyze revenue and cost drivers and support strategic planning decisions.

HR Attrition Analysis *(Excel, SQL, Power BI)* [GitHub](#)

- Used SQL and Power BI to analyze employee data, identify attrition drivers, and visualize key risk factors on interactive dashboards.

Estate Payment Tracker *(SQL, Excel, Power BI)* [GitHub](#)

- Built a SQL-backed financial tracking dashboard in Excel and Power BI, reducing payment discrepancies by 25%.

Invoice Approval Workflow *(Google Forms, Google Sheets, Apps Script)* [GitHub](#)

- Built a multi-stage automated approval workflow with Apps Script, including automated notifications, color-coded status tracking, and a full audit trail.

Inventory Management & Stock Monitoring Dashboard *(Excel, VBA)* [GitHub](#)

- Built a VBA-automated inventory system for real-time stock tracking, reorder alerts, and management reporting.

Automated Payroll System *(Excel, VBA)* [GitHub](#)

- Built a fully automated payroll system handling pay slip generation, deductions, and net pay calculation with zero manual entry.

EDUCATION

BSc Accounting – University of Lagos, Lagos, Nigeria | 2025
